THE DAILY SENTINEL.

C. L. MACARTHUR & D. M. KELLER, EDITORS.

Friday Morning, December 13.

Thanksgiving in Milwaukee.

Thanksgiving was generally observed as a holiday by the good people of our city. Most of the stores were closed, and the citizens generally attended the various churches, where religious services were performed in an appropriate and becoming manner.

The day was most lovely—neither too warm nor too cold—with a cloudless sky and a bland atmosphere—a kind of neutrality not generally proverbial to the weather clerk at this period of the year. All seemed determined to discard for a brief season the voracious cares of life, and make themselves glad by a general thanksgiving—thankful, as they might be for the innumerable blessings showered upon them by a beneficent Providence. Indeed it was a brief period of merry-making; hilarity, buoyancy of spirit and glad-heartedness shone out perceptibly on all, making the day an occasion to be cherished in the memory as oasis in the bleak and cheerless desert of human life in its murkiness and dull realities.

Among other events of the day, a most excellent discourse was delivered at the Congregational Church by the Rev. Mr. Miter, upon the "moral and political condition of the country," and which we are given to understand will speedily be published.

In the evening, the Ladies' Fair at St. Paul's Church was most numerously attended. Indeed it was a perfect jam, so dense was the throng. It seemed that Milwaukee

"Ladies' Fair at St. Paul's Church."

The articles exposed for sale on the tables were legionary in number, consisting of almost everything that woman's creative and ingenious fancy could devise and her fair hands manufacture, and manufactured with an exquisiteness and taste that none but woman could execute.

At a more advanced period of the evening, tables of refreshments, laden with the choicest delicacies to gratify the palates of the most fastidious, were spread in various parts of the room, and no higher compliment could be passed upon the superior manner the repast was served up, than the assiduous attention it received from the guests in attendance.

Among such an array of beauty it well might be considered invidious in us to attempt to signalize any "bright particular star," of the evening where all their airer portion seemed to vie with each other in their endeavors to render the occasion joyous and happy. All seemed highly delighted with their evening's entertainment, and at a seasonable hour retired to their homes, to keep the occasion in pleasurable remembrance.

We are requested to state that the Ladies' Fair at St. Paul's, will be continued this evening—admission free. The receipts of last evening amounted to the handsome little sum of \$410—which, together with the proceeds of this evening, are to be appropriated to trimming the Church.

OFFICIAL VOTE OF TENNESSEE.—The returns which have "dragged their slow length along" from this State, have at length all come in. An official proclamation announces the result as follows:

CLAY..... 60,023
POLK..... 59,901

Clay's majority..... 132

If anything were needed to cheer the drooping spirits of the Whig party, it would be found in the result of the election in Tennessee. How striking the contrast in the popularity of the two candidates! Polk not possessing sufficient importance of character to become a mark for anything but ridicule, could not get the vote of his own State to endorse his pretensions. Kentucky, on the other hand, rolls up her gallant son such a large majority as cannot fail to overwhelm the defamers of Clay in merited infamy and shame.

The communication of "Neckar" is another consideration. We have yet to be informed at greater length upon the subject. An institution like the one he alludes to, it is true, possesses the means of consummating much good or evil. Being the only association extant in the Territory that assumes banking prerogatives, and transacting as it does, an extensive and widespread business, any unjust attempt to its injury is to be deeply deplored.

We have just received an additional quantity of brevity type, and consequently shall be enabled to enlarge our Daily on Monday.—We are truly grateful for the liberal patronage bestowed upon our establishment, and will spare no pains to merit its continuance.

We invite the particular attention of our business community to a call in another column for a public meeting at the Cottage this evening to urge upon the general Post Office Department the transmission of a Daily Mail between this city and Chicago during the winter.

Birney received about 3000 votes in Indiana, being about 1000 more than Polk's majority over Clay.

"THE CRISIS"

There may be had at the Book Store of W. L. Wilshire & Co. in our city a few copies of a Pamphlet, called "The Crisis!" An Appeal to our Countrymen, on the subject of Foreign Influence in the United States, issued under the sanction of the General Executive Committee of the American Republican party of the city and county of New York. A copy right has been secured to the publishers, and we are therefore not at liberty to republish it, even though we had the right, and space in our paper to do so. To enable those of our readers who are not familiar (and we venture to say few are) with all the facts and reasons which have originated this Party, and the grounds they occupy, we will publish such extracts from it as will enable our citizens to judge of the merits and probable influence of this party upon the future destinies of our country. As many of the most talented and influential papers in nearly every city in the Union have taken ground with this party, their principles and objects are matters of at least equal interest and importance to us. Our city and county embrace probably as large a proportion of foreigners as any other section of our Union, and rapidly approaching as we are the period when we must form a State Constitution for ourselves and our children, the subject of "foreign influence" and the right of suffrage imperatively demand our earliest and highest consideration. This alone will be a sufficient apology for the space which these extracts will occupy in our paper, if, indeed, any apology were necessary for presenting to our readers matter for their consideration of the highest importance to the interests of freedom. The following is taken from

PRELIMINARY REMARKS.

The character of the population anticipated from foreign countries changed with the rapidity of immigration, and our Alms Houses and prisons began to be filled. In our race for improvements, a temporary disposal of these immigrants was made; and this as rapidly increased their numbers. Very soon these new comers became anxious to be citizens and to participate in the control of our government. By their clamor, and the blindness and selfish interests of politicians, they succeeded at an early day in obtaining more favorable terms of naturalization; and, soon after, even the probation required by the easy terms obtained, became irksome in their eagerness to wield our institutions. Violations of the Naturalization laws, political ambition, recklessness, and abuse of our countrymen, began soon to indicate the consequences of our ill-advised philanthropy and heedlessness.

Every distinguished country, history informs us, has been cautious in admitting foreigners to participate in their rights and privileges. It is well known that the Athenians seldom if ever confided in those, even who spoke their own language. When the people were first gathered to form Aethica into a nation, foreigners, as in Athens, were allowed to practice their professions, and they were protected in their persons and property by wise and salutary laws, but none but native citizens were allowed to participate in the government. It is true, also, that no one but a Greek was allowed to enter the Olympic Games. All the gold of Eastern kings could not purchase this one right of the native citizens. A special law only could allow Pericles to marry his own countrywoman of another city.—Even in its most degraded condition, no number dared insult an Athenian by proposing to share his rights and country. It was treason to insult a Roman citizen; and none were allowed his rights but those who "had done the state some service." Thus the rights of citizenship were highly appreciated and honored. Even modern nations preserve far more virtue in this respect, than ourselves. And are we so tame as to submit this slavishly? An American must have permission to enter Ireland or England; and yet England boasts of being the freest nation on the earth. He must be known to the government; and even then he cannot be a citizen, nor in his own name, make a will or mend a pair of shoes.

The false sympathies and mawkish sensibility of our countrymen in regard to foreigners, it is plainly seen, will prove our ruin. Should one rob himself, his family and friends of all that he and they love, and which is the source of all their happiness, to bestow it upon those who neither need nor appreciate it? Is it not our highest duty to defend ourselves and others from being robbed of these rights and privileges; and is not their defence and that of ourselves the first law of nature? As things now are, we give away, or place in the hands of others, the means of robbing us of all we possess. Foreign influence seeks to divest us of these, and it is directly opposed to our character and institutions.

No one but an American born can feel, think and act like an American. Hence the heterogeneous masses in our country are not, they cannot be American; and we cannot retain under these circumstances our national individuality, or the blessings which it confers. There is no unity in our composition, and there cannot therefore be unity in our acts and purposes. In unity alone there is strength. How then can we hope for or expect individuality and strength while the elements of disunion are so powerful and continue so rapidly to increase?

In view of these and the following facts and considerations, a large portion of our honest, patriotic and intelligent countrymen have become associated to check the excess of foreign influence among us, and to reform public abuses arising therefrom. For these objects, they have taken the title of "American Republicans," and their purposes may be briefly stated as follows: 1st, To extend the time of Naturalization. 2d, To guard from corruption and abuse the proceedings necessary to obtain certificates of Naturalization. 3d, To instruct and form public opinion, as to give native citizens an equal chance at least with foreigners to obtain office and lucrative employment. 4th, To prevent the exclusion of the Bible from the use of schools. 5th, To prevent riots, the violation of our laws, the desecration of the American flag, and the shooting and murder of peaceable citizens

when in the exercise of their undoubted rights. 6th, To resist any further encroachments of a foreign, civil and spiritual power, upon the institutions of our country.

7th, To prevent all Union of Church and State. Thus we maintain and discuss principles. We advocate the purity and preservation of our institutions, the love of country, a compliance with the laws, the promotion of peace, prosperity, union and good will to all men. We are the friends of education; morals and pure religion. We support the natural rights and acquired privileges of our citizens, and we aim to protect the innocent, reform the vicious, educate the ignorant and relieve the wretched. All these tend to one object—the happiness of the American people.

THE BANNER TOWN OF THE UNION.—Mount Holey, in Rutland county, Vermont, gave Clay 182 votes—Polk 0—Birney 19. Van Buren had 7 votes in this town in 1840.

The Detroit Daily Advertiser estimates the number of buildings erected in that city during the past year to be three hundred.

The Commercial Bulletin of Cincinnati, heretofore a neutral paper, has run up the American Republican flag. Its editors have been Locofocos heretofore.

An exchange paper says that in 1517 a proclamation was issued, that women should not meet together to babble and talk, and that all men should keep their wives in their houses.

THEATROW WOOD, Esq. and daughter, set sail for the West Indies a few days since, from New York. All health is assigned as the reason of Mr. Wood's journey.

Settlers' Meeting.

At a meeting of the Settlers on the Canal Grant, in the Town of Menomonee and County of Milwaukee, held pursuant to public notice, at the house of William B. Hesk, on Saturday, November 30, 1844, the meeting was organized by appointing WM. R. HESK, Chairman, and NOAH P. REYNOLDS, Secretary.

The meeting then appointed a committee of six to draft resolutions expressive of the sense of the meeting, whereupon Levi Osterlander, Wm. M. Sanders, A. D. Wisner, H. S. Smith, Wm. Hanagan and P. Finegan, were appointed. After an absence of a few minutes, they submitted the following, which was unanimously adopted:

Whereas, an act incorporating the Milwaukee and Rock River Canal Company, was incorporated in the year 1838, and in June 1838, the Congress of the United States did complete the act of incorporation, with some slight modifications, and did grant to this Territory a quantity of land to aid in said work; and provided that the lands should not be sold for less than \$2.50 per acre;

And whereas, the settlers on the canal grant did in the winter of 1839, petition the legislature to accept the terms of the grant, by an almost unanimous expression of the settlers on the grant at that time; and

Whereas, certain obstacles, from the year 1839, up to the present time, have been thrown in the way of the prosecution of said Canal, and the minds of the people been excited to such an extent that great injustice has been done to the settlers at the delay of the prosecution of said canal; and

Whereas, we have always been in favor of the construction of said canal, and now are; but it appears that others, principally off the grant, are wishing to change the act of incorporation, and take the proceeds of the sales of land to build Roads, &c; and

Whereas, it is our opinion that such a change would be detrimental to the interests of the settlers on the canal grant; therefore,

Resolved, That we are not opposed to the construction of the Canal, but we wish it to be built and completed—and in order to accomplish this object, our members elect from this county are hereby instructed to endeavor to procure the passage of a law to secure the early completion of said canal according to the original contract.

Resolved, That we are opposed to having the lands revert back to the general government on any other considerations only that they shall be reduced to ten shillings per acre; and our Representatives from this county are hereby instructed to oppose any law or resolution attempted to be passed by the Legislature, unless it contains a provision to that effect.

Resolved, That we are opposed to any law which should be attempted to be passed by Congress, either accepting of the grant back or in granting the lands to the Territory for any other purpose than to aid in the construction of the Milwaukee and Rock River Canal, except it contains a provision that all the lands that have been sold and all that are settled upon, shall be reduced to ten shillings per acre, and that it also shall provide that the even sections that have been sold and that should be settled upon at the passage of the act, should be reduced to ten shillings per acre.

Resolved, That our delegate in Congress is hereby requested to oppose any law that may be attempted to be passed by Congress, except there be contained in it the very spirit and force of the preceding resolutions.

Resolved, That the proceedings of this meeting be signed by the officers and published in the Milwaukee papers.

WM. R. HESK, Ch'n.
NOAH P. REYNOLDS, Sec'y.

It is now generally agreed that the crop of Wheat has been very small in this State this season. Some say that there has not been more than half an average yield to the acre. We doubt, however, whether it has been quite so bad as this generally, though certainly it has been in many localities. This fact will have an important bearing on the commercial and business affairs, both in the city and the country. It is desirable that the extent of the crop should be ascertained as nearly as possible.—Detroit Daily Ad.

INDIAN POSSESSIONS.—The Ottawa cwn, at the latest accounts, is a very large tract of country on the Big Plate, west of the Mississippi; they are a very poor race of people, and receive a small annuity of \$25000. The Pawnees are a powerful body, and number about

6000 persons, divided into bands under the names of Pawnee Loops, Grand Pawnees, Republican Pawnees, Pawnee Pies, &c; they are wild and furtive in their habits, and receive provisions and goods. The Grand Nation is the Potawatamies, or the United Bands of the Chippewas, Ottawas and Potawatamies. They own five millions of acres of prairie lands, along the Mississippi river to the Little Sioux, number about 2000, and receive \$12,000 a year for their lands sold in Illinois and Michigan. They are a respectable body of Indians, are good farmers and educate their children. The payment of the annuities is always a season of great hilarity and festivity.

Caution.—The Buffalo Com. Advertiser cautions its western friends against a species of paper, which has made its appearance in that city, and of which the following is a specimen.

WISCONSIN:—SIXTEEN, Aug. 1, 1844.
Capital of \$200,000, (Vignette) incorporated 1-11
Cashier of the Milwaukee & Fire Insurance CO.

GRANT COMPANY.
Pay on demand FIVE dollars to T. Lee on bearer, at our office and charge the Institution.
No. 53
G. N. Smith, Sec'y. M. M. Hayden, V. Pres.

Across the left hand margin, in faint letters, is printed the following:
Received at par at the Farmers' and Drovers' Bank Buffalo.

The Commercial stamps the whole thing as of the most suspicious character, at best. Stafope, it says, is situated in the extreme Southwest of Wisconsin, above Dubuque, and is just such a place as would not be selected for the location of a legitimate banking institution. The Farmers' and Drovers' Bank at Buffalo, is also a small concern.—Detroit Daily Ad.

From the Times Sun.

A HORRIBLE AFFAIR.—The following extract of a letter from Lanai gives an account of a most horrible occurrence which recently happened at a neighboring island, dated March 22d:—

"You will have heard from Capt. Greene, of the Ontario, that three men deserted from him last Friday night. To day two of them returned, they were brought to the U. S. Consulate Agency and made one of the most horrible statements I ever heard."

"They, as they say, hired a boat of three natives on Friday eve, and started for Hawaii. There were three in the boat, viz: Walter G. Pike, of New Windsor, Orange county, N. Y.; Robert McCarty, New York city; and Jacob Von Clief, belonging to Middletown Point, N. J. the latter a colored man. They pulled all Friday night, Saturday, Sunday, and their nights, and became exhausted, and were unable to pull any longer. On Tuesday they drifted on the rocks at Lanai, and, having been without food or fresh water the whole time, and having drank salt water, they were in a state of starvation. They were not able to get up the pali (precipice) and agreed to cast lots to see who should die for the benefit of the other two. 'The lot fell' on Von Clief, who was killed by blows on his head with a stone. They then cut his arm and throat, and drank his blood, after which they cut a piece from his right arm and ate it. After they became strengthened, they got up the pali, and met with some natives, who gave them food, and brought them across the island, and to this place in canoes. The natives have been examined, and confirm the statement made by the men. The dead body was found as they described, and buried by them. The Governor will send to Lanai to-morrow for the women they first saw after landing, and for the remains of the boat."

Another letter states that these men were tried for murder, and acquitted, and subsequently tried for stealing the boat and fined \$80 and costs. Having no means of paying the fine, they were working it out on the public roads.

Personally let no man suppose, says the N. Y. American, that the means and appliances which bitter and malevolent enemies have used to defeat Mr. CLAY, have in reality injured him in the estimation of those whose good opinion he values.—He is the same man now that he was in 1843, when he returned to Kentucky, and with an eloquence and energy which no modern man can rival, addressed his friends and neighbors.

"It is now more than forty years," said Mr. Clay, "since I came here a poor and friendless youth. I was taken by the hand by your fathers, and led to fame and fortune. All that I am and have been, I owe to their generous kindness and steady confidence. And now I have come to spend the evening of my days among their children. I feel like the hunted stag who has been long hunted, and who returns at last to die upon the spot whence he started in vigor and hope. The curs of party have long been barking at my heels, and the blood hounds of personal malignity are springing at my throat, but rising to his full height, and looking around with flashing eye on his defamers, who had mingled with the crowd of hearers, I scorn and defy them now as I ever did!"

WORT COUGH PASTE.—For the

Cure of Coughs, Colds, Hoarseness, Irritation of the Throat, Croup, Whooping Cough, Asthma, Palpitation of the Heart, Liver Complaint, Night Sweats, Difficult or profuse expectoration, and all diseases leading to Consumption and Death!

Nature prepares a remedy for every disease!—The most learned physicians, medical men and philosophers, have all agreed that nature has provided a remedy for every disease, when used in time by the afflicted. A little reflection must convince every body of the truth, contained in this remark. The brute creation seem to know it by instinct. When they are afflicted, they eat freely of some particular plant or herb, and are at once relieved. If an

animal without reflection can thus alleviate their pains, what could man do, the image of his Creator, and endowed with a portion of his faculties. For sale by

WISCONSIN IRON WORKS.—Milwaukee, W. T. The subscribers having received to this place the extensive assortment of PATTERNS of all descriptions lately belonging to the Eagle Foundry, Rochester, N. Y., and from which nearly all the Castings were made for the celebrated Rochester Flouring Mills, now offer to the inhabitants of the Western country, wanting Castings of any kind, an opportunity of selection rarely to be met with. The patterns comprising this stock have been accumulating at Rochester N. Y. since 1822; consequently a greater variety of Castings can be obtained for flooring, grist, saw and mill iron, than at any other point in the western country. Also numerous sizes of cannon, rap, pop, &c. kettles and coolers; sleigh shoes, plain and fancy fire dogs; cast irons, tanners' and butchers' irons; wagon and cart boxes, plain or rounded; brands for mills and inspection; tobacco cutting machines; hoisting machinery for stores or warehouses; pile drivers, for man or horse power; bark mills and cracker's patent smut mill; pulley sheaves, from 3 to 18 inches diameter; paper mill, cooper's and malt rollers; children's wagon wheels; hand, truck and millers sack wheels; door and window cases, light and cheap; hinges for heavy mill and store doors; tinners' and cooper's snails; stakes weighing stakes and heading stakes; weights, 98, 60, 20, 25, 15, 11, and 7 lbs.; feet scrapers; for door-ways; screw power presses, for punching or cutting; and casting of every kind usually kept at Foundries. Also ploughs, dirt scrapers, joint harrows, horse rakes, cultivators, threshing machines, Pitt's threshing separator and horse power, and farm implements generally. Parlor, box and cook STOVES, of the most modern construction, all of which are offered on the most liberal terms at wholesale or retail.

Connected with the Foundry is an extensive machine shop and forging establishment, where steam Engines of any calibre, will be built or repaired. Any kind of machinery built to order, and turning and finishing of all kinds done. Also Hall's patent hard drills, a very useful application for smiths and machinists. Hall's new application of steam power to Saw Mills, whereby one third more lumber can be sawed than in the ordinary manner. Especial attention will be given to steamboat repairs of every description, and the best of stock used. The subscribers expect shortly to be in readiness for casting **HOLLOWWARE** of every kind. They are also agents for the sale of fire engines and hose, and for built mill stones, bolting cloths, screen wire &c. Patterns made to order and catalogues of those now on hand furnished gratis on application. Brass and composition casting of all kinds. Orders from abroad promptly attended to. Cash paid for old iron. dec3

LANGWORTHY & CO.
A. J. LANGWORTHY, NELSON McCRAKEN, Water Power, West Ward, Milwaukee, Sept 27, 1844. (11-2)

ANOTHER IRON IN THE FIRE.—The subscriber would respectfully inform the inhabitants of Milwaukee and vicinity that he has opened a fashionable **TAILORING** establishment on the east side of Water street, a few doors south of Huron, where he intends to carry on the above business in all its various branches, and where he will at all times be found ready to accommodate his friends and customers in cutting and making gentlemen's garments of every description in the latest and most fashionable style, and on the most reasonable terms.

Also ready made clothing of every description, always on hand, which he will sell cheaper for cash than can be purchased at any shop west of Lake Michigan.
Cutting promptly done and warranted to fit. By close application to business in all its branches the subscriber hopes to merit and receive a liberal share of public patronage.
N. B. Economy is wealth. The subscriber is prepared for renovating and dressing clothes, such as coats, vests, pantalons, etc., on an entire new plan from that pursued by dyers. On examining the articles cleaned by him, they are pronounced by competent judges equal to new. Spots of grease, etc. taken from the cloth and apparel put in complete form. When requested he applies a stiffening, and restores the color to faded seams. He can restore a garment to its original beauty without any injury to the fabric. The steaming process is not made use of.

To all persons disposed to patronize him in his business, he pledges himself, if any of his work is not done to their satisfaction, he will make no charges for his labor. Persons who may please to patronize him can have their clothes returned in a short time.
Specimens of his work may be seen at his shop. Milwaukee, Oct. 23, 1844. 306 HENRY C. TAIT.
